## WORK EXPERIENCE

**Maganda Media Management** 2025 – Present  
Developed and deployed scalable web applications using Wix's Corvid (Velo) platform. Designed intuitive user interfaces that improved overall user experience, driving measurably higher engagement.

## PROJECTS

**Saint Misty Space – MySpace Tribute Site**  
Full-stack fan page tribute built for a San Diego synth-pop artist. Features a fully custom music player with playlist support, dark/light mode toggle, embedded video, a friends section, and an integrated blog — all wrapped in a nostalgic Y2K aesthetic while remaining fully responsive.

**Tech:** *React, TypeScript, Node.js, Express, MongoDB, CSS3, Render*

### Christmas Planner

A full-stack holiday collaboration app enabling families to manage shared wishlists, coordinate gift purchases, schedule events, and receive email notifications. Built with Next.js 14 and Supabase for real-time data, authentication, file storage, and edge function scheduling.

**Tech:** *Next.js 14, TypeScript, Tailwind CSS, Supabase (PostgreSQL, Auth, Storage), Resend, Vercel*

**Live:** <https://christmas-planner-theta.vercel.app>

**GitHub:** <https://github.com/CarlyGallagher/christmas-planner>

### Personal Portfolio

A modern, responsive portfolio site built with Next.js 15 and TypeScript, featuring a custom bronze and black color scheme, typewriter animation, interactive skills grid, project gallery, and a fully functional contact form powered by Resend. Deployed to Netlify with environment-variable-secured API routes.

**Tech:** *Next.js 15, TypeScript, Tailwind CSS, Resend, FontAwesome, Google Fonts, Netlify*
